

Sticky Fingers - Laika

Tom: **D**

(**Gbm Bm7**)

I feel it, running in my veins
 Struggling with breathing
 Suffocates my brain
 There's no air in gravity's erase
 I am a runaway dog
 They sent me into space

It's a little planet
 Flying through the stars
 I don't wanna sit down
 How much did I cost
 Light speed, but I'm feeling kinda slow
 Gazing out the space screen
 Memories below

Passagem: (**Gbm Cm7 Bm7**)

Refrão: (**Gbm Bm7**)

Master, why'd you have to leave me?
 Didn't have to deceive me
 We were friends

Slingshot, hurts that I'm not dreaming
 Slowly overheating, you shook my hand

Silence, a neon glow lights up
 A crackle of speaker, then everything goes dark
 And there's nothing, except this floating dream
 I'm flying by the moon now
 I think it's time to sleep

Passagem: (**Gbm Cm7 Bm7**)

Refrão: (**Gbm Bm7**)

Master, why'd you have to leave me?
 Didn't have to deceive me
 We were friends
 Slingshot, hurts that I'm not dreaming
 Slowly overheating, you shook my hand

And I'm lonely, taking to the moonlight
 It's not time for spaceflight
 For this dog
 Was it worth it? Worth it breaking trust
 Worth the weight of love we have now lost
 We were friends
