v strum down
strum up

you'll have to find the lyrics somewhere else. I are not to good words

I have the intro verse and chorus and second interlude but I could not figure out the first interlude I guess you can use the cords in the intro for the first interlude. Also, I think it sounds better when you

strum it to the far right of the guitar.

Intro: v v v v v v v v

verse v v v

chor v v v v v

sec inter v v v v v v v v v v v v v v

solo
