  Em             Bm
I wake up in the morning
   C             G
So far away from home
Am                C           D
Tryin' to make it through the day
     Em          Bm
Many miles are between us
    C          G
I'm sending my love
Am        C  D
From this payphone

C
Through the storms we've wandered
     Em
Many mountains we have climbed
            C
But all the bad times are behind
            D                 Em  D
The road is free, I'm coming home

( Em  D  Em  D )
( Em  D  C  B )

    Em        Bm
Without you I am like
  C                G
A ship without it's sails
Am          C       D
Calling the wind to save me
    Em               Bm
I'd climb the highest mountain
    C                G
I'd cross the seven seas
Am              C      G
Just to see you smile again

C                                    Em
All the trust that we built along the years

Is coming back to stay
  C
I know, just look ahead
            D                Em  D  Em  D
The road is free, I'm coming home
           Em  D  C  B
I'm coming home

C          D                  Em
With every stem I'm closer to home
C        D                   Em
When I'm back you won't be alone
C         D                G    D  Em   D  C
Soon I'll see the familiar door be-fore  my eyes
    B
And you
