

# Stuart A. Staples - Goodbye To Old Friends

Tom: A  
Intro: (0:00)

Gbm  
Verse (0:07)

Gbm  
It's not that I don't love you  
Or are tired of your ways  
I want you to know

Gbm  
That's I'm always thinking of you  
You know I'd take you with me  
Wherever I go

Verse (0:36)

Gbm  
But I catch myself in the mirror  
And I remember I gotta do something about my life  
For I'm as empty as the clothes that I laid  
Crumpled where they fell to the floor

Verse (1:04)

Gbm  
I'm as empty as the ten green bottles  
Hanging in my mind from the night before  
And an ashtray full of moments  
Spent thinking about the things I should have done

Chorus (1:30)

Gbm  
I say goodbye to another old friend  
Yeah they stayed through thick and thin  
Through the laughter and the tears  
Through every state that I've been in

Gbm  
And I know they don't wanna hurt me  
But I can see it in their eyes  
That they're killing me so gently  
How can I ever say goodbye

Verse (2:26)

Gbm  
For as young me we clattered through these streets  
And how we hit this town running

Gbm  
And we were so sure of being us  
We flattened everything that stood in our path  
Now I wake up and I have to find myself  
Through all the shit that once told me who I was  
Chorus (3:04)

Gbm  
I say goodbye to so many old friends  
Here I left them to the wind  
And there ain't much point in chasing  
The things you can never get back again

Gbm  
But there's still some life in this one  
Give me a match and I'll reminisce  
Of a time when we were younger  
And we were stealing our first crack  
Verse (3:58)

Gbm  
And our thoughts had turned to dying  
And we were unaware at the time  
That this ride it could ever fall...  
Could ever slow down to this time...  
Verse (4:24)

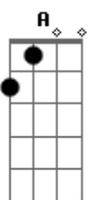

Gbm  
For I've been drunk and stoned and feeling mellow  
And that's how I've been getting through  
Looking at the blurry shapes around me  
Thinking I knew more than I knew  
Verse (4:52)

Gbm  
And it's not that I don't love you  
Or are tired of your ways  
If I could only take you with me  
If I could only ease this pain

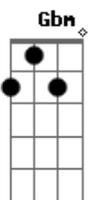

Outro (5:20)
