

Switchfoot - Dirty Second Hands

Tom: C

tabbed by Nate H.

Intro: Guitar 1 (acoustic)

Verse 1: Acoustic (Played thru TWO times)

Note: I'm not exactly sure what the strumming pattern is here because the rythm is kind of weird, but the chords are right.

Chorus: Guitar 2 (Electric w/ distortion)

After each of the two times you play the chorus riff, the chorus riff guitar 1 plays a slight variation the intro riff.

In between the chorus and verse two, do a slow bend on the 4

string
10th fret.

Verse 2 and chorus two are exactly the same except the verse is played with a distorted electric.

Interlude: Acoustic guitar, and electric guitar (clean)

Acoustic guitar plays intro riff thru most of the rest of the song

electric guitar plays...

...for the rest of the song.

The only time the above isnt played in the entire song after the 2nd chorus is when the chorus riff is played a few times near the end.

I hope thats clear enough for people to read, I'm pretty sure its basically what they sorry its not neater.
