

Tabatha! - Stay

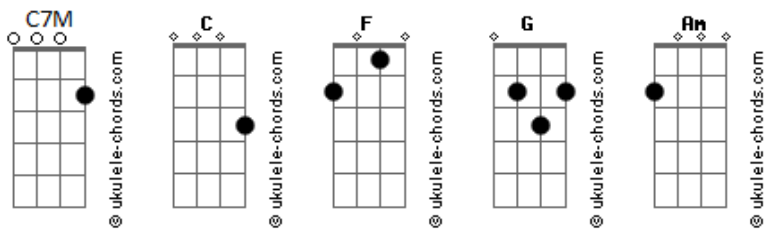

tom:
 C
 Saw you for the first time standing by the sea
 Reaching for the stars and for something you can't see
 Gave up every second just to look at you
 'Cause I was seeking something brand new and
 I wanted you
 Never thought I'd be so in love with your smile
 Everything enchants me when you are around
 You give me reasons both to stay and to move on
 But now I'm searching for the right one
 You say we're never getting back
 The feelings that we used to have
 But baby you know me so
 [Refrão]

C C7M F
 Kiss me like you mean it make it right and stay
 (Stay a little while with me tonight)
 C C7M F
 Baby don't conceal it let it shine and take
 (Take your time to make me feel alive)
 C C7M
 I know I'm not that perfect and I'm a mess
 Inside, but I'm all you've ever needed
 (Say you won't let go of me tonight)
 C C7M F
 Leave all your lonely feelings, I'll give you happiness
 We'll think about the future
 G C
 And just leave the bad things in the past

[Segunda Parte]

C F
 Am I going blind or just forgot to see

Acordes

Everything around me 'cause you're here with me?

I'm losing all my senses got to let you go
 'Cause now I know you're not the one for me
 But I still want you to
