Tom: C

C F  
 Standing, on the edge of forever  
 Am  
 At the start of whatever  
 Em  
 Shouting love at the world  
 C F  
 Back then, we were like cavemen  
 Am  
 But we met the moon and the stars  
 Em  
 Then we forgave them  
 Dm F  
 We will meet you where the lights are  
 Am Em  
 The defenders, of the faith we are  
 Dm  
 Where the thunder turns around  
 F Am  
 They'll run so hard we'll tear the ground away  
 Dm A  
 You know no one dies  
 Dm A  
 In these love drowned eyes  
 Dm A  
 Through our love drowned eyes  
 E E  
 We'll watch you sleep tonight  
 F C  
 Although no one understood  
 Am  
 We were holding back the flood  
 Em  
 Learning how to dance the rain  
 F C  
 We were holding back the flood  
 G  
 They said we'd never dance again  
 C F  
 Bleeding, but none of us leaving  
 Am  
 Watch your mouth son  
 Em  
 Or you'll find yourself floating home  
 Dm F  
 Here we come now on a dark star  
 Am Em  
 Seeing demons, not what we are  
 Dm  
 Tiny minds and eager hands  
 F Am

Will try to strike but now will end today

Dm A  
 There's progress now  
 Dm A  
 Where there once was none

 Where there once was none
