C

I wonder where do we go?

Where this words came from?

We keep askin for

And walking along the way

F

Trying undesrtand life has to say

C

Keep searchingfor an answer

Its Seems we spend our time in vain

C

The Road must to be hit
A route must to be set

With a fully open heart

Even though sometimes we cry

F

Thus Waiting Answers from the sky

Cause the bright stars you see

C

Is the same (that) shines between you and me

Ah, the road is waiting there

F

Ah, the fight is so unfair

C

Yes, i gotta be so strong, forever i swear

C

The Road must to be hit
A route must to be set

With a fully open heart

Even though sometimes we cry

F

Thus Waiting Answers from the sky

Cause the bright stars you see

C

Is the same (that) shines between you and me

C

Ah, the road is waiting there

F

Ah, the fight is so unfair

C

We must face our destiny horizon is there

C

The way that we care

We should be prepared
A load is to bear
