

Tamara Angel - The Road

C C vender where do we go?

I wonder where do we go?

Where this words came from?

We keep askin for

And walking along the way

Trying undesrtand life has to say

Keep searchingfor an answer

Its Seems we spend our time in vain

C The Road must to be hit A route must to be set

With a fully open heart

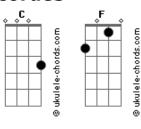

Even though sometimes we cry

Thus Waiting Answers from the sky

Cause the bright stars you see

Is the same (that) shines between you and me
