

# Tasha Page Lockhart - Over And Over

Tom: Db  
Intro: Gb7M Fm7 Ebm7 Db7M

Every now and then  
I remember when  
I went out on my own  
Searching here and there  
For someone to care  
Feeling so all alone but

Through the fire  
His love did not come to an end  
In my weakness  
Your grace was greater than my sin  
Over and over again  
The moment came and went  
I was feeling discontent  
Where was I supposed to go?  
Then You came along  
Making right what once was wrong  
Your love never failed  
And now I know  
Through the fire  
His love did not come to an end  
In my weakness  
Your grace was greater than my sin  
Over and over again

I've made some foolish mistakes  
Because I let in sin draw me away (over)  
Each time I let myself down  
Your grace it always abounds  
And I wanna say thank You (over)  
For giving me another chance (over)  
You are so faithful (over)  
You (... and over)  
But You didn't throw me away (over)  
How many know that it's over and over? (over)  
(Greater than my sin)  
Greater than my sins (over)  
Over (over... and over)  
I don't know where to start (over)  
Don't know how to begin (over)  
All I know is every time I looked around  
(Greater than my sin)  
You keep on blessing me  
You didn't throw me away (over)  
When nights were long and days were gray (over)  
I'll still remember You (over)  
How You loved me anyway (and over)  
I'll got down on my knees (over)  
I cried "Father, help me please" (over)  
Your grace, it never fails (greater)  
Now I stand in victory  
Through the fire  
Your love did not come to an end  
0-oo-oo In my weakness  
Your grace was greater than my sin  
Over and over again
