

# tate mcrae - Teenage Mind

tom:

Intro: G Am Em C

[Primeira Parte]

Some girls get all done up, hide their face and repair  
 They attend every party but it's taking them nowhere  
 Some think it's funny, say they don't even care  
 But on the inside, they wish, they were there

[Pre-Refrão]

What has it come to now? We all wanna be like the rest  
 Can't describe just how but it's all a beautiful mess

[Refrão]

One moment we're broken and then we're fine  
 "He called you back" "Wait, wasn't he mine"  
 One moment we're broken and then we're fine  
 Lost in the puzzle of a teenage mind

( G Am Em C )

[Segunda Parte]

Some boys make the trouble and think they're all it  
 Constantly in company or thrown to the ditch  
 And some are just there to have a good time

Ignoring every bit of drama and each little lie

[Pré-Refrão]

What has it come to now? We all wanna be like the rest  
 Can't describe just how but it's all a beautiful mess

[Refrão]

One moment we're broken and then we're fine  
 "He called you back" "Wait, wasn't he mine"  
 One moment we're broken and then we're fine  
 Lost in the puzzle of a teenage mind  
 In the teenage mind

[Ponte]

In the teenage, teenage mind  
 What have we come to now  
 Can't describe just how

[Refrão]

One moment we're broken and then we're fine  
 They said hello but missed goodbye  
 We are all insane inside  
 And no one can figure out the teenage mind

[Final] G Am Em C

## Acordes
