

# Taylor Swift - Beautiful Ghosts

tom:

E  
[Verso 1]

Em C B Em  
Follow me home if you dare to  
Em C B Em  
I wouldn't know where to lead you  
Em C D G  
Should I take chances when no one took chances on me?  
B B  
So I watch from the dark, wait for my life to start  
B  
With no beauty in my memory

[Refrão]

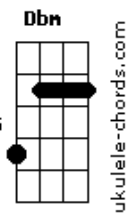

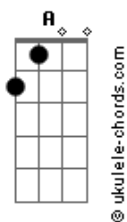

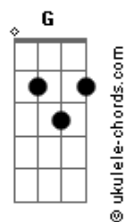

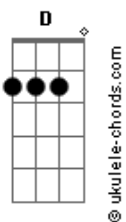

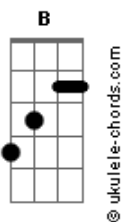

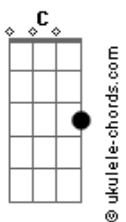

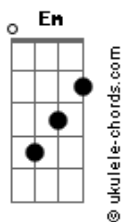

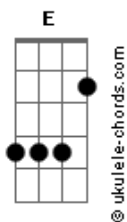

E A E A  
All that I wanted was to be wanted  
E A B E  
Too young to wander London streets, alone and haunted  
A B  
Born into nothing  
A B A B  
At least you have something, something to cling to  
E A B E  
Visions of dazzling rooms I'll never get let into  
A B Dbm  
And the memories were lost long ago  
A B E  
But at least you have beautiful ghosts

[Verso 2]

Em C B Em  
Perilous night, their voices calling  
Em C B Em  
A flicker of light before the dawn  
Em C D G  
Out here the wild ones are taming the fear within me  
B B  
Scared to call them my friends and be broken again  
B  
Is this hope just a mystical dream?

[Refrão]
