

# Taylor Swift - Message In a Bottle

tom:

Intro: G  
[Primeira Parte]

I know that you like me  
And it's kinda frightening  
Standing here waiting, waiting  
And I became hypnotized by freckles  
And bright eyes, tongue tied

[Pré-Refrão]

But now you're so far away  
And I'm down feeling like a face in the crowd  
I'm reaching for you, terrified

[Refrão]

Cause you could be the one that I love  
I could be the one that you dream of  
A message in a bottle is all I can do  
Standing here, hoping it gets to you  
You could be the one that I keep, and I  
Could be the reason you can't sleep at night  
A message in a bottle is all I can do  
Standing here, hoping it gets to you

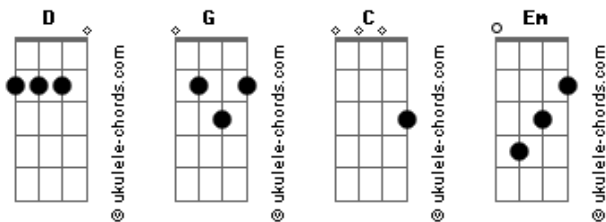

[Segunda Parte]

These days I'm restless  
Workdays are endless, look how you made me, made me  
But time moves faster, replaying your laughter, disaster

[Pré-Refrão]

Cause now you're so far away  
And I'm down feeling like a face in the crowd  
I'm reaching for you, terrified

## Acordes

[Refrão]

Cause you could be the one that I love  
I could be the one that you dream of  
A message in a bottle is all I can do  
Standing here, hoping it gets to you  
You could be the one that I keep, and I  
Could be the reason you can't sleep at night  
A message in a bottle is all I can do  
Standing here, hoping it gets to you

[Ponte]

How is it in London?  
Where were you while I'm wonderin'  
If I'll ever see you again?  
You could be the one that I love, mmm  
And now I'm standing here, hoping it gets to you

[Refrão]

Cause you could be the one that I love  
I could be the one that you dream of  
A message in a bottle is all I can do  
Standing here, hoping it gets to you (it gets to you)  
You could be the one that I keep, and I  
Could be the reason you can't sleep at night

(I can't sleep at night)

A message in a bottle is all I can do (yeah, yeah)  
Standing here, hoping it gets to you (yeah, yeah)

[Final]

You could be the one that I love  
You could be the one that I love, my love  
And now I'm standing, here hoping this gets to you
