

## Taylor Swift - One Thing

```
Tom: G
It wasn?t just like a movie
The rain didn?t soak through my clothes down to my skin
                                                                       G
Driving away and I guess you could say
This is the last time I drive this way again
                                                                           Em
And there?s nothing to say and I try to grab at the fray
?Cause I still love you but I can?t
Bye bye to everything I thought was on my side

D Em C
Bye bye baby
I want you back but it?s come down to nothing
And all you have is to walk away from
The one thing I thought would never leave me
The picture frame is empty
It?s black and white, you?re smiling down at me
I?ll take your photo off the dash
Back to the conversation we?re so sure of everything C $\sf D$ {\sf G} {\sf Em}
Everything we thought we?d always have \begin{tabular}{c} \begin{tab
Lost in the sound of it, the here and the now comes in
Seems like I?m becoming part of your past
Bye bye to everything I thought was on my side D Em C
Bye bye baby
```
