

Taylor Swift - So It Goes

Tom: B

m ^G
^G See you in the dark, ^A All eyes on you, my magician
^G All eyes on us, you make everyone disappear, and
^G Cut me into pieces gold cage, hostage to my feelings
^G Back against the wall, trippin', trip-trippin' when you're gone

^G 'Cause we breakdown a little, but when you get me alone, it's so simple
^G 'Cause baby, I know what you know, we can feel it

^G And all our pieces fall, right into place
^G Getting caught up in a moment, lipstick on your face, so it goes
^G I'm yours to keep, and I'm yours to lose
^G You know I'm not a bad girl, but I do bad things with you, so it goes

^G Met you in a bar, all eyes on me, your illusionist
^G All eyes on us, I make all your gray days clear, and
^G I wear you like a necklace, I'm so chill but you make me jealous
^G But I got your heart, skippin', skip-skippin' when I'm gone

^G 'Cause we breakdown a little, but when you get me alone, it's so simple
^G 'Cause baby, I know what you know, we can feel it

^G And all our pieces fall, right into place
^G Getting caught up in a moment, lipstick on your face, so it goes

^G I'm yours to keep, and I'm yours to lose
^G You know I'm not a bad girl, but I do bad things with you, so it goes

^G Come here, dressed in black now, so, so, so it goes
^G Scratches down your back now, so, so, so it goes

^G You did a number on me, but honestly baby, who's counting?
^G I did a number on you, but honestly baby, who's counting?
^G You did a number on me, but honestly baby, who's counting?
^G Who's counting? --- (one, two, three)

^G And all our pieces fall (pieces fall), right into place
^G Get caught up in a moment (caught up, caught up), lipstick on your face, so it goes
^G I'm yours to keep (oh), and I'm yours to lose (baby)
^G You know I'm not a bad girl but I, I do bad things with you, so it goes

^G Come here, dressed in black now, so, so, so it goes
^G Scratches down your back now, so, so, so it goes
^G Come here, dressed in black now, so, so, so it goes
^G Scratches down your back now, so, so, so it goes
