

Taylor Swift - Tell Me Why

```
Tom: G
            I took a chance, I took a shot
            And you might think I'm bulletproof, but I'm not
            You took a swing, I took it hard
            And down here from the ground I see who you are
            I'm sick and tired of your attitude % \left( 1\right) =\left( 1\right) \left( 
            I'm feeling like I don't know you
            You tell me that you love me then cut me down
            And I need you like a heartbeat
            But you know you got a mean streak
                                                                                                                                                                                                           Em7 D G Em7 C

            Yes, I remember what you said last night
            And I know that you see what you're doing to me
            Tell me why
              You could write a book on
          How to ruin someones perfect day
                                                                                             G
          Well I get so confused and frustrated
            Forget what I'm trying to say, oh
            I'm sick and tired of your reasons
            I got no one to believe in
                                                                                                                                                                                                                                                               Em7

 Yes, I remember what you said last night
 And I know that you see what you're doing to me
 Tell me why
Why... do you have to make me feel small
So you can feel whole inside
Why... do you have to put down my dreams \begin{tabular}{c} A \end{tabular}
So you're the only thing on my mind
 I'm sick and tired of your attitude
 I'm feeling like I don't know you

 I told you I'm not bulletproof, now you know
