

# Tegan And Sara - Hey, I'm Just Like You

Tom: G

Stranded and I'm so lost, my mind is wired  
 Overcome and overdone, my fate is on fire  
 Eat the drugs and dance to screaming in my head  
 I'm so happy that we're friends, me and you

I never feel invisible when you're around  
 With you, I don't blend in with the millions  
 Together in the light, I swear all for you  
 Tonight in the dark, we're seeing colors

Hey, I'm just like you  
 A little messed up and blue  
 Hey, I'm just like you  
 Not sure what the fuck I'm to do  
 We're headstrong tonight (tonight, tonight)  
 Racing through the streets 'till we fly  
 Gold-colored prisms of light (the light, the light)  
 Headstrong tonight

Sometimes we get so tired of pretending like you're so strong

Everyone you love has gone and decided that you're so wrong

I always feel invincible when you're around  
 You and me against the millions  
 Together in the light, I swear all for you  
 Tonight in the dark, we're seeing colors

Hey, I'm just like you  
 A little messed up and blue  
 Hey, I'm just like you  
 Not sure what the fuck I'm to do  
 We're headstrong tonight (tonight, tonight)  
 Racing through the streets 'till we fly  
 Gold-colored prisms of light (the light, the light)  
 Headstrong tonight

We're headstrong tonight (tonight, tonight)  
 Racing through the streets 'till we fly  
 Gold-colored prisms of light (the light, the light)  
 Headstrong tonight
