

# Thalles Cabral - It's a New Year And We've Never Been So Old

tom:  
Capostrate na 1ª casa

Flying to the Moon

Inside Apollo 11

Was my dream last night

Floating in the dark

With little fuel and full of hope

Searching any light

I'm looking for a garden for me

I'm broken, scared and with weak knees

I need a new place for myself

Every right my people have earned

Achieved and fought for, are now burned

You only think about yourself

Can you hear my voice?

They don't even seem to hear each other

With all those massive sick thoughts

And on one side, they fight

On the other, they cry out for chaos

Until all is destroyed

Please, people, move backwards

While they throw all those darts

At the weakest targets and scream in the name of God

Oh, Mr. President

Its hard to call you this way

Because you should work for all

Not judging on color, gender or race

Oh, Mr. President

Tell me, why don't you care?

I'm sorry, but I cannot understand

What God is that

But history will charge and won't forgive

And we, the people, we won't ever forget

It's a new year and we've never been so old

It's a new year and we've never been so old

It's a new year and we've never been so old

It's a new year and we've never been so old

( Bb Dm Bb Dm )

It's a new year, when did we get so cold?

It's a new year, why are you all blindfolded?

It's a new year and we are a fucked up world

It's a new year and our land is being sold

And all we have is love, I can hear ourselves

You bet we will hold on, I can hear ourselves

We've never been so strong, I can hear ourselves

And we don't need more guns, I can hear ourselves

And all we have is love, I can hear ourselves

And all we have is love, I can hear ourselves

And all we have is love, I can hear ourselves

And all we have is love, I can hear ourselves

( Bb Dm Bb Dm )

It's a new year

It's a new year

It's a new year

It's a new year

Five, four, three, two, one, happy old year

Love is a word not found by them
