tom:

Intro: C G

[Primeira Parte]

With a face from a movie scene  
Or magazine, know what I mean?  
She's definitely got the style on you  
She's definitely got the style on you

[Pré-Refrão]

She's got two-tone everything  
Moving but she just can't move  
She's got two phones, everything,  
you moving but she just can't move

[Refrão]

Because she way out  
I've never seen her dance moves  
Dancing like she way out  
She way out, I've never seen her talk  
But I'm telling you she way out

[Segunda Parte]

She said "It's not about your body  
It's just social implications are brought upon by this party  
that we're sitting in  
And I'd like to say you've changed but you're always the same  
I've got a feeling that the marijuana's rotting your brain"

[Pré-Refrão]

She's got two-tone everything, way too intelligent  
Moving but she just can't move  
She's got two phones, everything  
Boyfriend, telling him, "Find me cause I'll never find you"

[Refrão]

Because she way out  
I've never seen her dance moves  
Dancing like she way out  
She way out, I've never seen her talk

But I'm telling you she way out  
Because she way out  
I've never seen her dance moves  
Dancing like she way out  
She way out, I've never seen her talk  
But I'm telling you she way out

( C )

[Ponte]

The tension is overflowing with every Benson she's throwing  
On the floor and my mouth  
She said "I'd love you to stay but that's simply insane  
I've got a feeling that my friends are gonna kick in your brain"

Because

[Refrão]

Because she way out  
I've never seen her dance moves  
Dancing like she way out  
She way out, I've never seen her talk  
But I'm telling you she way out  
Because she way out  
I've never seen her dance moves  
Dancing like she way out  
She way out, I've never seen her talk  
But I'm telling you she way out

[Ponte]

She way out  
She way out  
She way out  
She way out  
She way out  
She way out  
She way out  
I've never seen her dance moves  
Dancing like she way out  
She way out, I've never seen her talk  
But I'm telling you she way out
