

# Arcade Fire - Neighborhood 1 Tunnels

Tom: F

Tabbed by: Ryan Huddleston  
Email:

Tuning: Standard

Ok I'm just going to tab out the guitar part of this song even though their seems to be instruments playing in the background. I'll try and put in some orchestra parts tabbed guitar also.

Intro: (Over another guitar playing a F chord):

Here is the verse:

Listen to song for rythm but basically the F power chord is played for a beat and a half the E power chord is played for a half beat each time. After that the D powerchord played one beat and the A and Bb powerchords are played a half-beat each. (Wierd rythm but you'll understand when you hear it.)

When he starts singing "We let our hair grow long.." in the verse just play

and hit the A and Bb powerchords a little bit harder because this bit goes into the which is below.

Chorus (Which is also the outro):

(First guitar can just play these powerchords in the chorus)

(If you want to play something more or you have a second guitar play this)

As usual, the F and D chords are played a beat and a half while the E and A chords played only a half beat. The octaves are just played slowly at first and then go up fast.

On most of the parts of the song I thought the higher F powerchord sounded better but if dont think so, simply substitute it for the lower one:

```
e|-----|
B|-----|
G|-----|
D|--3-----3---|
A|--3-and then play the E like this--3---|
E|--1-----0---|
```

Also, you can play the full chords if you think they sound better (Fmaj, Dmin, Amaj, Cmaj)

Ok, these should be all the parts of the song just listen to it to see when to play  
Also at the end of the song, play the intro riff while everything else fades out.

Very good song thats a lot of fun to solo to. I just heard the songs on the cd today  
I'm gonna try to get a tab for "Wake Up" as soon as possible.

Lyrics:

And if the snow buries my,  
my neighborhood.  
And if my parents are crying  
then I'll dig a tunnel  
from my window to yours,  
yeah a tunnel from my window to yours.  
You climb out the chimney  
and meet me in the middle,  
the middle of town.  
And since there's no one else around,  
we let our hair grow long  
and forget all we used to know,  
then our skin gets thicker  
from living out in the snow.

You change all the lead  
sleepin' in my head,  
as the day grows dim  
I hear you sing a golden hymn.

Then we tried to name our babies,  
but we forgot all the names that,  
the names we used to know.  
But sometimes, we remember our bedrooms,  
and our parent's bedrooms,  
and the bedrooms of our friends.  
Then we think of our parents,  
well what ever happened to them?!

You change all the lead  
sleepin' in my head to gold,  
as the day grows dim,  
I hear you sing a golden hymn,  
the song I've been trying to say.

Purify the colors, purify my mind.  
Purify the colors, purify my mind,  
and spread the ashes of the colors  
over this heart of mine!

## Acordes
