

# Arcade Fire - Une Anee Sans Lumiere

Tom: **G**

(com acordes na forma de  
Capostrate na 7ª casa  
Tabbed by: Erol Sabadosh

**C** )

Capo on 7th fret (Win detunes the guitar somehow but you can still play with the capo)

The order of the above and the number of times each little bit is played varies so it's to you to listen to the track and get it, it's not too difficult if you know the vocals.

Here's the chorus: (Hey, your old man should know...)

This is just before shift at the end (remember, this is with the capo still on)

## Acordes
