

Arcade Fire - We Used To Wait

```
Tom: Eb
                                                                 Ooh we used to wait
(com acordes na forma de
                                           C)
                                                                       C
Capostraste na 3º casa
                                                                 Ooh we used to wait
Intro: Am
                                                                 Ooh we used to wait (Sometimes it never came)
                                                                             Am
I used to write
                                                                 Ooh we used to wait (Sometimes it never came)
                                                                      C F
                                                                 Ooh we used to wait (Still moving through the pain)
I used to write letters I used to sign my name
I used to sleep at night
Before the flashing lights settled deep in my brain
                                                             I'm gonna write
But by the time we met
                                                             A letter to my true love I'm gonna sign my name
                                                                              Am
By the time we met the times had already changed
                                                             Like a patient on a table
                                                                          C
                                                             I wanna walk again gonna move through the pain
So I never wrote a letter
                                                             Now our lives are changing fast
                                                             Now our lives are changing fast
I never took my true heart I never wrote it down
                     Αm
                                                                                Fm
                                                             Hope that something pure can last
So when the lights cut out
                                                                                Em
I was lost standing in the wilderness downtown
                                                             Hope that something pure can last
                                                             Chorus
               C
                                                                          Αm
Now our lives are changing fast
                                                                we used to wait
                                                                          Am
Now our lives are changing fast
                                                                we used to wait
                  Fm
Hope that something pure can last
                                                                we used to wait
                  Em
Hope that something pure can last
                                                             Am C Am C F C D Am
But it seems strange
                                                               We used to wait for it, We used to wait for it
                    F
How we used to wait for letters to arrive
                                                               Now we're screaming, sing the chorus again
                                                                      C
But what's stranger still
                                                               We used to wait for it, We used to wait for it
                                                               Now we're screaming, sing the chorus againn
Is how something so small can keep you alive
         Am
                                                                   C
                                                             I used to wait for it,
                                                                                       I used to wait for it
We used to wait
                       F
                                                                                               D Am
We used to waste hours just walking around
                                                               Hear my voice screaming, sing the chorus again
We used to wait
                                                             Am C Am C F C D
                          F
                                                                              Wait for it
All those wasted lives in the wilderness downtown
                                                             Am C Am C F C D
                                                                              Wait for it
Chorus:
                                                             Am C Am C F C D
                                                                              Wait for it
```
