

# The Black Keys - Desprate Man

Tom: G

one the parts use a metal slide.  
 This isnt the whole song, i'm just adding more than i've seen on other versions.

key:  
 s \ \_\_ slide  
 b \_\_ bend  
 \_\_ metal slide  
 p \_\_ pull off  
 t \_\_ play w/ thumb

G                    G use slide            G might be a G7, try it!  
 t                    t                    ~~~~~

then while he sings he just plays that 1st lick (hammered on):

repeat till he stops singing then do the second part of the intro:

then:

~you could play 11 on the B string instead of the 6, but Dan doesn't.

I just came back in to edit this after watching the DVD.  
 -the begining he plays the bass sounding G with his thumb and its more like:  
 t
