

# The Black Keys - No Trust

Tom: **Ab**

i dont have my guitar with me @the moment-doing this from memory bear w/me.  
(let these 1st notes ring out)

(Play that for awhile, then when lyics start play #1 with them)

"aint got no trust"...(repeat) "and she aint got trust in you"

~then go back 'n' play #1,2&3 again~  
~also, not sure bout the part that goes...

"she wants you to hold her @ night when shes lonely and blue"  
but i think you can just play a **G** over it & go back to #1 when he says blue

i'm coming back to edit this...play a **C** or **C7** over it i think might be better.
