        [Primeira Parte]

 B                                    Ebm
I used to see you every single day on everybody tree
 Dbm                              Em
These eyes some get in the way every time we need

Don't turn me into one, I ain't nobody's fool
 Dbm                             Em
Don't turn me into one, my heart aches for you
```

You make me feel this time
 B                            Ebm

                   Dbm     Em
Shake me up your mind
```

[Segunda Parte]

```
 B                                    Ebm
I get the feeling that I don't belong, but baby, I'm alright
 Dbm                                Em
It's all some that's going wrong, so I'll be in all night
 B                              Ebm
I'm not the only one, I don't know why I stay
 Dbm                            Em
I'm not the only one, no matter what you say
```
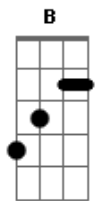

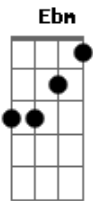

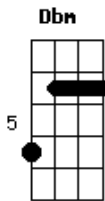

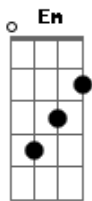

[Pré-Refrão]

```
 Dbm                 Ebm
```

```
Is it true? It's true. know
 Abm
I say I will but I don't go

 B                            Ebm
Oh my little lady can't you see how bad
                   Dbm     Em
You make me feel this time
 B                              Ebm
I know why you hate me and how bad you wanna
                   Dbm     Em
Shake me up your mind
```

[Ponte]

```
                    Dbm              Ebm
And it don't matter if she shake me up
          Dbm              Ebm
Gone leave then from my arms
                   Dbm        Ebm
If I ain't good enough, don't wake me up
 Dbm                   Ebm
Don't say that I'm alone
                  Dbm                     Ebm
When I got heartache, when I got heartache
                  Dbm                     Ebm
When I got heartache, when I got heartache
                  Dbm                     Ebm
When I got heartache, when I got heartache
                   Em
When I got hurt
