```

Well, the light was rust, and the cold was in our knees

And our breath poured out over golden fields

Though I could not know then

We'd have but few times like these

With all the good smoke in between

( G Am Em Am D )

Tucked the darkness in, dragged the harrow across the land,

Found my fresh start, sowed my wildest dreams

Though I could not know then,

I was well in the weeds,

A tangled mess, whatever could come next

( G Am Em Am C C )

Before the hours took over,

Before the full weight was on our shoulders,

Bm Am

Before the twilight's cover,

Before I knew time was such a swindler

D  
Uuuuh

Oh my dear friend, everything falls to death

We tuck the darkness in,

We tuck the darkness in

Oh my dear friend, everything falls to death

We tuck the darkness in,

We tuck the darkness in

G Am Em Am D  
G Am Em Am D

Oh my dear friend, everything falls to death

We tuck the darkness in,

We tuck the darkness in

Oh my dear friend, everything falls to death

We tuck the darkness in,

We tuck the darkness in
