

The Brobecks - Cluster Hug

Tom: G

Intro: G

F C Am Eb
G C G

I'm a teenage beauty queen of sorts

Calculated, cold, without remorse

We can go to town, we can mess around

We can do anything

Disseminate disease

Doing anything that we please

Only if you like me too

I could fall in love with you

Only if you'd like me to

Fall in love

Darling, you're a holy quarantine

Shake me like a tambourine

We can mess around

We can burn this town to ash

As charming as we are

We are nothing but pretty trash

Only if you like me too

I could fall in love with you

Only if you'd like me to

Fall in love

(Em G Em G)

Ooh I love you so

Never let me go

Beautiful quarantine

Circumvent me

Acordes
