The Cranberries - Linger

Tom: F

```
        F
If you, if you could return
                 G
don't let it burn don't let it fade
                             Bb
I'm sure I'm not being rude but it's just your attitude
                     F
it's tearing me apart it's ruining everyday

     F
I swore, I swore I would be true
                   G
and honey so did you
                        Bb
so why were you holding her hand is that the way we stand
                          F
were you lying all the time was it just a game to you

(refrão)
               F
But I'm in so deep...
                   G
you know I'm such a fool for you
                           Bb
you got me wrapped around your finger ...
                          F
do you have to let it linger do you have to do you have to
                     F
```

```
do you have to let it linger
               G
Oh, I thought the world of you
                     Bb
I thought nothing could go wrong
                   F
but I was wrong, I was wrong

(intro)
             F                          G
If you, if you could get by trying not to lie
                              Bb
things wouldn't be so confused and I wouldn't feel so used
                              F
but you always really knew I just wanna be with you

(refrão)
                   F
But I'm in so deep...
                      G
you know I'm such a fool for you
                              Bb
you got me wrapped around your finger ...
                          F
do you have to let it linger do you have to do you have to
                          F
do you have to let it linger
