Intro: Am   F7   G

```
Am              F7              G
Still can't recognise the way I feel I feel I feel
    Am          F7          G
If what you said to me was real
        Am                  F7                  G
And you still can't find the strength to apologize, uh-gize,
uh-gize, a-lies.
            Am          F7              G
You just go on laughing and telling everyone lies

                Am              F7              G
Cuz you wanted it all, you wanted it all, you wanted it all
                Am              F7              G
No, and there's nothing at all, nothing at all, nothing at all
Am              F7              G
Baby if you could see beyond your nose, your nose, your nose,
who knows?
Am                  F7              G
Back then what could happen surely shows.
Am              F7              G
Do you like the sound than your additude, I do, I do, I do
        Am                      F7
And you went on laughing and shouting, "It's all too soon."

                Am              F7              G
Cuz you wanted it all, you wanted it all, you wanted it all
                Am              F7              G
No, and there's nothing at all, nothing at all, nothing at all
