Intro: Dbm
[Primeira Parte]
Tell me once again
I could have been anyone, anyone else
Before you made the choice for me
My feet knew the path
We walked in the dark, in the dark
I never gave a single thought
To where it might lead
(Dbm A E)
(Dbm A E)
[Segunda Parte]
All those empty rooms
We could have been anywhere, anywhere else
Instead I made a bed with apathy
My heart knew the weight
Ten years worth of dust and neglect
We made our peace with weariness
And let it be
(Dbm A E)
(Dbm A E)
[Pré-Refrão]
The moon will sing a song for me
I loved you like the sun
Bore the shadows that you made
With no light of my own
```

## **Acordes**

```
[Refrão]
I shine only with the light you gave me
I shine only with the light you gave me
( Dbm A E )
( Dbm A E )
[Terceira Parte]
Name your courage now
We could have had anything, anything else
Instead you hoarded all that?s left of me
Swallowing your doubt
Like swords to the pit of my belly
I want to feel the fire that you kept from me
( Dbm A E )
( Dbm A E )
