

The Cure - Close To Me Acoustic

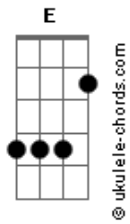

Tom: E

"Close to Me"

Ok, I wasn't able to find "useful" chords for this song so I came up with my own. I'm about 90% sure that this is the right key. You can experiment with this but this songs right on the money. It's two guitars so find yourself a partner and get crackin'! Please leave good rating. Thanks.

Standard Tuning

Acordes

/= slide

(Note: this is the rhythm of the bass)

Here's the little rift

(Note: Press finger down on the actual metal fret, this will give it that harmonic sound.)

I suspect you already know how to clap. Well, that should work for just acoustic. I hope found it helpful.
