

## The Cure - Never

```
Tom: B
She wants so much to please me she always does it right
She wants so much to please me all day and every night
She doesn't read the stars
She has no time for fate
She doesn't see the signs
She has no time to wait
She is trying to be the one for \ensuremath{\mathsf{me}}

Yeah we want so much to have this always and everytime
But we don't need to read the stars
We don't need the time for fate
We don't need to see the signs
To know it's all too late
