The Cure - Sinking

Tom: G

```
   Em
I am slowing down
Em
As the years go by
Em
I am sinking

Am                      C
  So I trick myself
Am                      C
  Like everybody else

The secrets I hide
Twist me inside
They make me weaker

Am                      C
  So I trick myself
Am                      C
  Like everybody else
G                           Em
  I crouch in fear and wait
G                           Em
  I'll never feel again

   D
If only I could
   C
If only I could
   D
If only I could
  C
remember
Em
   Anything at all
```
