I'm telling you to explain  
Cause now you're playing my game  
If you don't do what I say  
I'm gonna throw you  
In the river, someday

[Segunda Parte]

Em  
See me floating down the river  
That's where my body does lie  
It sure was a cold September  
With blood on everybody's mind

[Terceira Parte]

Em B7 Em  
See my body on the shoreline  
My thoughts are spilling in the stream  
Picking strings all together  
But everybody knows their scene

[Refrão]

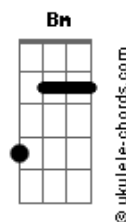

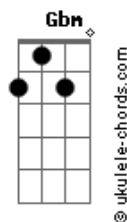

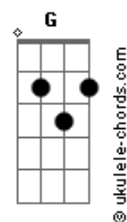

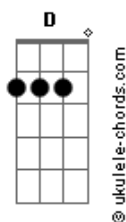

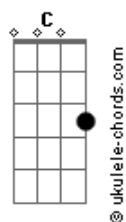

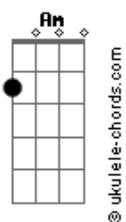

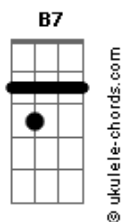

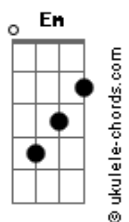

G C D  
What did they put in the water  
That we're drinking every night  
What did they do to the music man  
When they tried to silence him that night

[Quarta Parte]

Em  
Can you see it in the stars now  
That you ain't acting right  
Your minds been poisoned by the weather  
The people and all of those lies
