

The Do - Gonna Be Sick

Tom: E

m **Em**
 Pitbulls at night, put up a fight
Em
 Skeleton bone, tasting alright
Em
 Fingers are stuck, caught in a plug
Em
 Thousands of volts, so stubborn a jaw
Em
 What can I keep, what will you take back
Em
 What's left of me, when you do that
Em
 What can I keep, what will you take back
Em
 What's left of me, when you do that

C **Em**
 I'm gonna throw, gonna throw, gonna throw, gonna throw up
C
 He was brave and rescued me
Em
 Jumped in oceans raging seas
D
 Filled my lungs with oxygen
Bm
 I was such a wreck back then
C
 Put me back up on my feet
Em
 Taught me how to walk and speak
D
 When I got the chance to thank
B7
 There was just some shadow left there
C **Em**
 I'm gonna throw, gonna throw, gonna throw, gonna throw up

Em
 Danger at sight, nowhere to hide
Em
 Why don't you build a tent for the night
Em

Fear in my throat, choke and revolt
Em
 You learn their ways while I excavate
Em7
 What can I keep, what will you take back
Em7
 What's left of me, when you do that
Em
 I'm gonna throw up, I'm gonna throw up
Em
 I'm gonna throw up, I'm gonna throw up
CM7
 He was tailor-made for me
