

# The Do - Lick my wounds

Tom: Db  
Intro: Db Fm Db Fm

Lick my wounds  
Suck the venom  
There's our shelter  
There's our shed

Broke a tooth and made a move  
Before the storm  
Caught a bird into my hands  
To make a bond  
Loving is a poison is a hologram  
Bleeding feet on desert beach in ochre sand  
Does it make a difference if the pirates land  
If we put aside our golden privacy  
No one will be left behind, i guarantee

I guarante

Lick my wounds  
Suck the venom  
There's our shelter  
There's our shed

Trustfully and gracefully i'm lost at sea  
Shallow waters don't appear a threat to me  
We should row together to an island i know  
Rearrange the riddle and reset the core  
Reset the core

Lick my wounds  
Suck the venom  
There's our shelter  
There's our shed
