

# The Driver Era - Low

Tom: G

Never did I know  
 I could get this low  
 I could get this low for you  
 Now the sun don't shine  
 And the rain don't pour  
 And I'm still thinking about you

Roll out of bed and straight up to the cloud  
 Inside my bazi real the stay  
 I found the angel and she lives she now  
 But I can't get it out my case

Then she got away  
 Somehow, somehow, somehow  
 So I'll go and fake  
 My smile, my smile, yeah

Never did I know  
 I could get this low  
 I could get this low for you  
 Now the sun don't shine  
 And the rain don't pour  
 And I'm still thinking about you  
 Never did I know  
 I could get this low  
 I could get this low for you

Still I know, still I know  
 We get this low, I'll never know

I could get this low  
 I could get this low for you  
 Oh, I could get this low for you

Sometimes I wonder why I'm in this place  
 And maybe I will never know  
 But if I ever laugh for my mistakes  
 The future ain't predictable

She ain't got me back  
 Or I'll, or I'll, or I'll  
 So I'll go and fake

My smile, my smile, yeah

Never did I know  
 I could get this low  
 I could get this low for you  
 Now the sun don't shine  
 And the rain don't pour  
 And I'm still thinking about you  
 Never did I know  
 I could get this low  
 I could get this low for you

Still I know, still I know  
 We get this low, I'll never know

I could get this low  
 I could get this low  
 Oh, I could get this low for you  
 I could get this low  
 I could get this low  
 Oh, I could get this low for you  
 ( Dm Am Gm )  
 Or I'll, or I'll, or I'll  
 ( Dm Am Gm )  
 My smile, my smile, yeah

Never did I know  
 I could get this low  
 I could get this low for you  
 Now the sun don't shine  
 And the rain don't pour  
 And I'm still thinking about you  
 Never did I know  
 I could get this low  
 I could get this low for you

Still I know, still I know  
 We get this low, I'll never know

I could get this low  
 I could get this low for you  
 Oh, I could get this low for you

I could get this low
