

The Gardener & The tree - Mama's Guitar

Tom: C
Intro:

[Verse 1]

She played the guitar in the darkest of nights
A few calls and we just knew what we got
She said, come along boys, yeah
We've got this whole lot of night

[Verse 2]

She picked out a few that we knew
And she just said, we've got the whole night time and
Standing around this fireplace we could sing our souls all free

[Chorus 1] x2

And we've been singing
La lala la
Lala lala la
lala lalala lalala

[Verse 3]

She played the guitar in the darkest of days
And she took away our furious pains
She said, I love you boys
I love you even though you're stray

[Verse 4]

She said I guide the darkest of nights
And I'll take away your furious pride
She said I'll love you boys
I'll love you just the way you are

[Chorus 2] x2

We're singing

La lala la
Lala lala la
lala lalala lalala

[Verse 5]

She said, the walls don't make this house a home
You keep on running but you end up all alone
I know, we spend our days on sundays and we were reading in a book

[Verse 6]

You spend your time with your brothers
And you just practice with the son
You said my kid is old, and I'm too but I got something that goes on
[Verse 7]

She played the guitar in the darkest of days
And she took away our furious pains
She said, I love you boys
I love you even though you're stray

[Verse 8]

She said, I guide the darkest of nights
And I'll take away your various lives
She said, I'll love you boys
I'll love you just the way you are

[Outro] x 7

We're singing
You make this house a home
You make this house a home, home, home
You make this house a home
Oh yeah, you do

Acordes
