

The GGGG's - Now I Can Be The Real Me

tom:

Intro: E A E A E

Walls you can build all around
 Just to shield a piece of your world out of sight
 And I needed you to look through
 To the shadows I tried to burry inside
 Drawing them out to the light
 You showed me I got nothing here to hide

Now I can be who I am
 Now I can stand up for everyone to see
 Takin this life in my hands
 Now I can be,
 Now I can be the real me

Free of defenseless finally
 And I'm somehow safer than I've ever felt
 You, dare to be you
 Now I know I don't have to be someone else
 When I'm with you I am just myself

Now I can be who I am
 Now I can stand up for everyone to see
 Takin this life in my hands
 Now I can be,
 Now I can be the real me
 Now I can be the real me
 Now I can be the real me
 Now I can be,
 Now I can be the real me

Walls you can build them all around
 But you've show'd me I've got nothing here to hide

Now I can be who I am
 Now I can stand up for everyone to see
 Takin his life in my hands
 Now I can be,
 Now I can be the real me
 Now I can be the real me
 Now I can be the real me
 Now I can be,
 Now I can be the real me
