

The Groop - A Famous Myth

Tom: G

I'm gonna exchange my things for precious wings and fly
 Over the valley of the kings and the queens where the sleeping cities lie

One bright night, I'm gonna fly right out my window
 Gonna fly so high in the night sky that the people below won't see me go by

Gonna fly all around, and smile down on the sleeping countryside
 Fly all around, never come down till Soloman takes another bride

Then I'm gonna exchange my precious wings for things and die
 Over the valley of the kings and the queens where the sleeping

cities lie
 One bright night I gonna fly right out my window
 Gonna fly so high in the night sky that the people below won't see me go by

Gonna fly all around, and smile down on the sleeping countryside
 Fly all around, never come down till Soloman takes another bride

Then I'm gonna exchange my precious wings for things and die
 Over the valley of the kings and the queens where the sleeping cities lie

One bright night I gonna fly right out my window
 Gonna fly so high in the night sky that the people below won't see me go by
