

## The Happy Fits - Reason For Dreaming

```
tom:
Intro: G
[Primeira Parte]
We don't even need a reason for dreaming
You and I can act it out
Love when I'm with you
Just loses all it's meaning
There's nothing else than what is now
Sure we gonna go where
No one will know what
What we do is all about
Cuz they just don't see
That we got something special
Though they won't say that out loud
[Refrão]
So if you want to say we're something C G
If we're too plain to be unique
Then I swear to God that no one is you
And nobody else here is me
[Segunda Parte]
We don't even need a reason for dreaming
```

So if you want to say we're something {\color{red}C}
If we're too plain to be unique
Then I swear to \operatorname{\mathsf{God}} that no one is you
And nobody else here is me
And if you want a different story
With blazen bombs and silver seas
Then I pray to God that no one is you
And nobody else here is me
```
