

# The Head And The Heart - Ghosts

Tom: F

(com acordes na forma de E )  
Capostrate na 1ª casa

Boys in the streets are talking about leavin, they're leavin.

Looking for places to go.

Boys in the streets are talking about leavin, they're leavin.

Looking for places to go.

Andy built his coffin down in Carolina,

told me he was running from somethin.

I think he's just out chasing girls.

And Erin moved all of her shit to Chicago,  
her mother made sure that she left with a bible,  
but you won't find her face on sundays.

Refrão  
All my friends are talking about leavin, about leavin.  
But all my friends are sittin in their graves.  
But all my friends are sittin in their graves.

All my friends are talking about leavin, about leavin.  
But all my friends are sittin in their graves.  
refrão

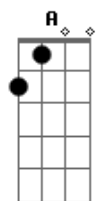

Is is any wonder why we all leave home?  
People say ?I knew you when you were six years old!"  
But I've changed, I've changed, I've changed.  
Mom and dad, if only you could see me now.  
Been here for a year and now I own this town.  
Cause I've changed, I've changed, I've changed.

Pre-Refrão

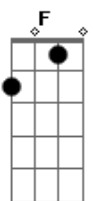

Refrão

One day we'll all be ghosts.  
Trippin around someone else's home.  
One day we'll all be ghosts, ghosts, ghosts.  
Ghosts, ghosts, ghosts.  
One day we'll all be found.  
No longer lost, we're just hanging around.  
One day we'll all be found, found, found.  
Found, found, found.
