

# The Imperials - Eagle Song

Tom: D

I stood and watched an eagle fly  
 Spread his wings and soar across the sky  
 So gracefully he flew  
 Ri- - sing effortlessly!  
 I wanted to know just how to be free  
 Tiny fingers curled 'round mine  
 Perfectly formed, newborn  
 The image of two  
 In- fi- - nite mystery!  
 I wanted to know where life comes from  
 What human intellect can't sway

Must be explained away  
 Earth wisdom, religions of men  
 Search without end to fill  
 The spirit house within  
 Simplicity of God somehow escapes man  
 I reach for the Eternal One  
 Creation He was waiting to reveal  
 His purpose in me.  
 He said: "This is where life begins  
 I made your spirit to glide on the wind  
 Come let's fly on the wind!  
 Come on, let's fly on the wind!  
 On the wind, on the wind, on the wind!
