

The Imperials - Eagle Song

Tom: D

I stood and watched an eagle fly
 Spread his wings and soar across the sky
 So gracefully he flew
 Ri- - sing effortlessly!
 I wanted to know just how to be free
 Tiny fingers curled 'round mine
 Perfectly formed, newborn
 The image of two
 In- fi- - nite mystery!
 I wanted to know where life comes from
 What human intellect can't sway

Must be explained away
 Earth wisdom, religions of men
 Search without end to fill
 The spirit house within
 Simplicity of God somehow escapes man
 I reach for the Eternal One
 Creation He was waiting to reveal
 His purpose in me.
 He said: "This is where life begins
 I made your spirit to glide on the wind
 Come let's fly on the wind!
 Come on, let's fly on the wind!
 On the wind, on the wind, on the wind!
