The Interrupters - In The Mirror

```
                         tom:
                           A

                    Bm              G     D     A
No matter how far I run, I always end up back here
            G         D       A                   Bm
No matter how far I go, I always end up back here

Bm                             G
Took me two years to write this song
               D       A           Bm
I wanted it perfect, no wrinkles in it
                                   G
Took me a long time to come clean
       D            A
To be honest, the truth?s so ugly

Gbm        G                   A
Took me a long time to come home
                    Gbm        G
I didn?t think you?d get me
           A
I had too much explaining

Bm            G     D     A               Bm
No matter how far I run, I always end up back here
            G         D       A                   Bm
No matter how far I go, I always end up back here
          Bm              Bm              Bm
In the mirror, in the mirror, in the mirror, only

In the mirror

Bm                            G
I always felt so out of plac?
         D            A
In a crowded room, I speak too soon
          Bm                      G
Yeah I put a big smil? on my face
            D            A
```

```
I can?t let them know it?s all for show, No

Gbm         G                   A
Took me a long time to come home
                      Gbm        G
Bm  I didn?t think you?d get me
            A
I had too much explaining

Bm            G     D     A               Bm
No matter how far I run, I always end up back here
            G         D       A                   Bm
No matter how far I go, I always end up back here
          Bm              Bm              Bm
In the mirror, in the mirror, in the mirror, only

In the mirror

( Bm  A   D   G )
( Bm  A   D   G )

          Bm                       A
I?m tired of running, I?m tired of running
          D                        G
I?m tired of running, I?m tired of running
          Bm                       A
I?m tired of running, I?m tired of running
          D   G
I?m tired of running

             G     D     A               Bm
No matter how far I run, I always end up back here
             G     D     A               Bm
No matter how far I go, I always end up back here
             G     D     A               Bm
No matter how far I run, I always end up back here
             G     D     A               Bm
No matter how far I go, I always end up back here
Bm              Bm              Bm              Bm
In the mirror, in the mirror, in the mirror, only in the
mirror
```
