

The Key of Awesome - Reggae Shark Returns

Tom: D

[Intro]

Bm

[Verse]

Yeah yea yeah it's the further adventures of the reggae shark

When we last left reggae shark they threw him a parade

For bringing peace to Kingston town

Him got the taste of fame and then he swam off to LA

And now Jamaica wears a frown

And all the children cry

Reggae shark! Can't believe ya left!

Ya broke our hearts, you showed us no respect!

[Verse]

He got himself an agent and an entourage

Produced a hit single with Nicki Minaj

He made a couple movies and he's on T.V.

And now he only smokes dat prescription weed.

Yah man, me take 400 pounds of dat purple brain pillow

Got his own reality show, meanwhile back home

There's barracudas abusing the coast. Oh no/ oh no!

Bm

Reggae sharks new movie received terrible reviews

They say "reggae shark has jumped himself"

Him got so depressed he went and drank a whole booze cruise

caught his reflection and thought "whats become of you?"

[Bridge]

he barfed and out swam the jellywitch

and thought "hey that's my old nemesis"

she said "ive been in here the whole time,

controlling your tiny great white mind"

he slipped past the witch and swam back home, sayin

"hey barracudas leave dem humans alone!"

They said "nope" so he smoked herb for an hour

Which gave him super munchie power. MUNCHY POWER! MUNCHY POWER

He told the barracudas their party was through

Ate them all and had funyuns too

[Verse]

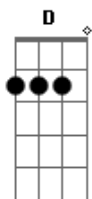

Horray! Reggae Shark! This is our favorite song

We'll never part! Twas the jellywitch all along

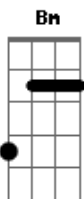

Reggae shark! Where is that jelly bitch? Jelly bitch

She stole my car
