Tom: B

Obs: uso do slider

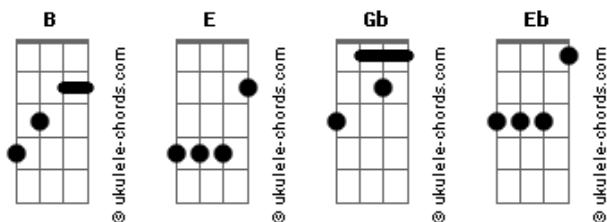

**B**  
A little birdie whispered in my ear,  
**E** You been cooking up a world of fear,  
**B**  
Put your hands in things you shouldn't have known,  
**E** You was riding in the danger zone  
**E**  
Well you had us all fooled with your quarter back smile,  
**G#M** And your crocodile tears there for a while,  
**E** Got my paradigm shifting, man, you're making me shout

**B**  
Hey, from here on out,  
**E** Friends are gonna be hard to come by,  
**Gb** Left us wondering what it all was about,  
**E** You had it easy man you chose the hard way,  
**Gb** Walk that old lonely road in a shadow of a doubt,  
**B**  
From here on out

## Acordes

**B**  
Should I pass over the side and cross?  
**E** You may wonder what the trouble cost  
**B**  
That don't matter now life goes on  
**E** Hallelujah, the trouble's gone!  
**E**  
No sense in holding grudges in this 32 years  
**G#M** These are things I must learn to practice while I live,  
**E** Got my paradigm shifting man you're making me shout:  
**B**  
Hey, from here on out,  
**E** Friends are gonna be hard to come by,  
**Gb** Left us wondering what was it was all about,  
**E** You had it easy man chose the hard way,  
**Gb** Walk that old lonely road in a shadow of a doubt.

**B**  
Hey, from here on out,  
**E** Let the people pull the peace sign  
**Gb** Left us wondering what it's all about,  
**E** You been denied but you carried it with ya,  
**Gb** Down that old lonely road in a shadow of a doubt,  
**B**  
Yeah from here on out
