

The Killers - Midnight Show

Tom: G

(Intr.)

Em - B - Am - G / D

(Verso)

Em
I know what you want

I'm gonna' take you to a Midnight Show tonight

Em
If you can keep a secret -

I've got a blanked in the backseat on my mind

And a little place that sits beneath the sky

She turned her face to speak, but no one heard her cry:

(Refrão)

(Verso)

Em
I know there's a hope

There's too many people try'na help me cope

You've got a real short skirt

I wanna' look up, look up, look up, yeah

Em
We we're just in time

Let me take a little more of your mind

There's something in my hair

Somewhere in the backseat

We we're just a good ting - we we're such a good thing

Make it go away, without a word

But promise me you'll stay and fix these things I've heard

(Refrão)

(Solo)

Em - B - Am - G / D

Oh, no...

The crashing tide can't hide a guilty girl

With jealous hearts that'll start with gloss and curls

I took my baby's breath beneath the chaneliere -

of stars and atmosphere

And watched her disappear

Oh faster, oh faster, oh faster, oh faster, faster, oh faster

Oh, no, no, no, no, no, no, no,

No, no, no, no, no

If you can keep a secret

Well baby, I can keep

If you can keep a secret

(She said she loved me)

If you can keep a secret, I can keep a secret

(She said she loved me)

If you can keep a secret

Well baby, I can keep

If you can keep a secret

Acordes
