

The Killers - Pressure Machine

tom:

Intro: Gb Gb

[Primeira Parte]

Hope'll set your eyes a gleam
 Like four feet dangling in the stream
 But the Kingdom of God, it's a pressure machine
 Every step, gotta keep it clean
 A mattress on a hardwood floor
 Who could ever ask for more?
 I'll get up and cut the grass
 Ain't nothing wrong with working class

[Refrão]

I I don't remember the last time
 You asked how I was
 Don't you feel the time slipping away?
 It ain't funny at all
 It's gonna break your heart one day

[Segunda Parte]

Keep the debt cloud off the kids
 Only sunshine on their lids
 Jiminy Cricket and Power Wheels

And memories of Happy Meals
 Sometimes I look at the stars
 And think about how small we are
 Sweating it out in the pressure machine
 Good till the last drop

[Refrão]

Why don't you say little things?
 Butterflies don't just dance on a string
 It feels like you clipped all their wings
 And every year goes by faster than the one before

[Terceira Parte]

We've had that treadmill now for months
 I think she might've used it once
 If I shut my mouth and keep the peace
 She'll cook my eggs in bacon grease
 Life'll grow you a big red rose
 Then rip it from beneath your nose
 Run it through the pressure machine
 And spit you out a name tag memory
