

# The Lumineers - Angela

Tom: E

(com acordes na forma de Capotraste na 4ª casa C)  
Intro: G Dm C (2x)

When you left this town, with your windows down  
And the wilderness inside  
Let the exits pass, all the tar and glass  
'Til the road and sky align

The strangers in this town  
They raise you up just to cut you down  
Oh angela it's a long time coming

And your volvo lights lit up green and white  
With the cities on the signs  
But you held your course to some distant war  
In the corners of your mind

From the second time around  
The only love I ever found  
Oh angela it's a long time coming

1Refrão:

Home at last  
Were you safe and warm in your coat of arms  
With your fingers in a fist  
Did you hear the notes, all those static codes  
In the radio abyss?  
Strangers in this town  
They raise you up just to cut you down  
Oh angela it's a long time coming  
Oh angela spent your whole life running

2Refrão:

Home at last  
Home at last  
Vacancy, hotel room, lost in me, lost in you  
Angela, on my knees, I belong, I believe

2Refrão: (2x)

Home at last  
Home at last
